

LEICESTER GRAMMAR SCHOOL TRUST
LGS STONEYGATE

**NON-EXAMINATION ASSESSMENT POLICY (INCLUDING APPEALS
PROCEDURE)**

In this policy, “the School” will refer to LGS Stoneygate. “GCSE” will be taken to refer to GCSE as well as equivalent courses such as IGCSE, International GCSE, BTEC, VCert and other similar qualifications.

This is one of the policies concerned with the curriculum. It should be read in conjunction with the policies on the curriculum, examinations, assessment, pupil behaviour, and special educational and disability needs and the related Joint Council for Qualifications (JCQ) documents. This policy affects the delivery of subjects of reformed GCSE qualifications which contain components of non-examination assessment.

“The regulator’s definition of an examination is very narrow and in effect any type of assessment that is not ‘externally set and taken by candidates at the same time under controlled conditions’ is classified as non-examination assessment (NEA). ‘NEA’ therefore includes, but is not limited to, internal assessment. Externally marked and/or externally set practical examinations taken at different times across centres as classified as ‘NEA.’” [Definition taken directly from the JCQ publication *‘Instructions for conducting non-examination assessments’*.]

The term “non-examination assessment (NEA)” in this document therefore refers to any externally assessed but centre timetabled or any centre-assessed component of an external qualification, including but not limited to: coursework, controlled assessments, endorsements, extended projects, practical examinations and speaking exams.

The purpose of this policy, as defined by JCQ, is to:

- cover procedures for planning and managing non-examination assessments.
- define staff roles and responsibilities with respect to non-examination assessments.
- manage risks associated with non-examination assessments.

The School is committed to ensuring that the following standards are upheld:-

NEA are conducted by staff who have appropriate knowledge, understanding and skills.
NEA are conducted in accordance with the relevant awarding body’s specification and the relevant JCQ regulations (see the JCQ documents *‘Instructions for conducting controlled assessments’*, *‘Notice to Centres – Reviews of marking (centre assessed marks)*, *Instructions*

for conducting examinations’, ‘Plagiarism in examinations’, ‘Suspected malpractice in examinations and assessments’ and ‘Adjustments for candidates with disabilities and learning difficulties’).

The marking of NEA is fair, consistent and in accordance with the awarding body's instructions.

Candidates

Understand relevant regulations and sign a declaration that authenticates the work as their own.

Marking and moderation

Marking will be carried out in accordance with the awarding bodies' instructions.

Consistency of assessment is assured through internal moderation across different teaching groups.

After candidates' work has been internally assessed, it is moderated by the awarding body to ensure consistency in marking between centres.

Where a candidate carrying out a non-examination assessment is related to a teacher involved in the marking or moderation of that internal assessment, every reasonable step will be taken to ensure that the teacher in question has no involvement in the marking of that candidate's

work. Where this is unavoidable, the awarding body will be made aware of the candidate/teacher relationship and that candidate's work will be submitted to the awarding body for moderation.

Malpractice and Plagiarism

Where instances of malpractice occur or plagiarism is identified by teaching staff, no marks will be awarded for that piece of work and any additional punishments will be determined by the school's policy on pupil behaviour. For an unsecure assessment, the candidate may be given a second opportunity to complete the task at the subject teacher's discretion. For a secure assessment, the candidate will not be given a second opportunity to complete that task.

Where instances of plagiarism are identified by the awarding body, any sanctions and penalties imposed will be determined by the awarding body. Refer to the JCQ document '*Suspected malpractice in examinations and assessments*'.

Appeals against internal assessment decisions (centre assessed marks)

This procedure confirms the School's compliance with JCQ's *General Regulations for Approved Centres 2022-2023*, section 5.7 that the centre has in place "a written internal appeals procedure relating to internal assessment decisions and to ensure that details of this procedure are communicated, made widely available and accessible to all candidates" and that "before submitting marks to the awarding body [the school] will inform candidates of their centre assessed marks and allow a candidate to request a review of the centre's marking."

Certain components of GCSE qualifications (GCSE controlled assessments and GCSE NEA) that contribute to the final grade of a qualification are internally assessed (marked) by the subject teacher. The marks awarded (the internal assessment decisions) are then submitted by the deadline set by the awarding body for the external moderation.

The School is committed to ensuring that whenever its staff mark candidates' work this is done fairly, consistently and in accordance with the awarding body's specification and subject-specific associated documents.

The School ensures that all centre staff follow a robust *Non-examination assessment policy* (for the management of GCSE NEA). This policy details all procedures relating to non-examination assessments, including the marking and quality assurance processes which relevant teaching staff are required to follow.

Candidates' work will be marked by staff who have appropriate knowledge, understanding and skill, and who have been trained in this activity. The School is committed to ensuring that work produced by candidates is authenticated in line with the requirements of the awarding body. Where a number of subject teachers are involved in marking candidates' work, internal moderation and standardisation will ensure consistency of marking.

On being informed of their centre assessed marks, if a candidate believes that the above procedures were not followed in relation to the marking of his/her work, or that the assessor has not properly applied the mark scheme to his/her marking, he/she may make use of this appeals procedure to consider whether to request a review of the centre's marking.

N.B: an appeal may only be made against the assessment process and not against the mark to be submitted to the awarding body.

1. The School will ensure that candidates are informed of their centre assessed marks so that they may request a review of the centres marking before marks are submitted to the awarding body.

2. The School will inform candidates that they may request copies of materials (for example, a copy of their marked work, the relevant specification, the mark scheme and any other associated subject-specific documents) to assist them in considering whether to request a review of the centre's marking of the assessment. This request **must** be made within 4 calendar days of receipt of the centre assessed marks.
3. The School will, having received a request for copies of the materials, promptly make them available to the candidate within 4 calendar days.
4. The School will provide candidates with sufficient time in order to allow them to review copies of materials and reach a decision.
5. Requests for reviews of marking **must** be made in writing within 7 calendar days of receiving copies of the requested materials by completing the attached **internal appeals form**.
6. The School will allow 7 calendar days for the review to be carried out, to make any necessary changes to the marks and to inform the candidate of the outcome, all before the awarding body's deadline.
7. The School will ensure that the review is carried out by an assessor who has the appropriate competence, has had no previous involvement in the assessment of this piece of work for the candidate and has no personal interest in the review.
8. The School will instruct the reviewer to ensure that the candidate's mark is consistent with the standard set by the centre.
9. The candidate will be informed in writing of the outcome of the review of the centre's marking.
10. The outcome of the review of the centre's marking will be made known to the Headteacher and will be logged. A written record will be kept and made available to the awarding body upon request. Should the review of the centre's marking bring any irregularity in procedure to light, the awarding body will be informed immediately.
11. It is at the School's discretion to charge a £50.00 fee to carry out a review of the centre's marking for a NEA component. This fee will be split into two parts: an initial £25.00 fee will be charged on receipt of a request for copies of materials; a second £25.00 fee will be charged on receipt of a request for a review of the centre's marking.

In the event that a candidate (or his/her parent/carer) submits an appeal to request a review of the centre's marking, there are three possible outcomes:

- The original mark is lowered.
- The original mark is confirmed as correct.
- The original mark is raised.

In each case, this revised mark is the mark that will be submitted to the awarding body, regardless of whether it is lower than, the same as, or higher than the original mark received.

In the event that a mark is raised by more than the awarding body's tolerance level for the component, the fees will be waived.

After candidates' work has been internally assessed, it is externally moderated by the awarding body to ensure consistency in marking between centres. The external moderation process may lead to mark changes. This process is outside the control of the School and is not covered by this procedure.
